

VCL One Way Plow

The North American Leader in innovative snow & Ice control equipment.

Standard Features

1. **Heavy Duty Tubular Pushframe & 10 gauge Rolled Steel Construction:** perfect for high speed rural and interstate plowing.
2. **3 Slotted Trip Lugs** allow the plow to trip when encountering speed bumps and other obstacles.
3. **Adjustable Trip Spring Assembly** provides safe tripping action in a variety of conditions.
4. **Adjustable Moldboard Angle** for enhanced edge efficiency. Shear bolts on moldboard brace protect the plow components and truck.
5. **Adjustable Pushframe Shoes**
